### **COMPREHENSION PASSAGE (Practice Sheet)**

#### **Read the passage and answer the questions**

Radha stood with her father, watching the airplanes swoop and dive. They were watching an air show at Long Beach. Radha was very excited. She knew what she wanted to do. She wanted to fly! Flying was rough and dangerous.

Planes were unsafe and they often crashed. Yet Radha wanted to fly in a plane. Her father said that she could take a short flight. Radha felt thrilled as the pilot took off. From high in the sky, she could see the ocean and the Hollywood hills. The sight was so wonderful that she was sure she wanted to be a pilot.

So, she began to take classes. Once she could fly, she wanted her own plane. She took several small jobs and saved every penny. By the time she was twenty-four, she had saved enough money to buy a tiny plane. It was called Canary because it was painted a bright yellow. In the beginning, Radha had many small accidents when flying. These accidents made other people worry a lot. But Radha was not worried about them.

Later that year, Radha made her first solo flight. The take-off was difficult, but she did it. Then she flew up high over the airfield. Now she was free to be alone in the sky as much as she liked.

#### **A. Answer the questions.**

1. What did Radha want to do and when was she filled with this longing?
2. What did Radha see from the skies? How did the sight influence her?
3. How did she manage to buy herself a plane?
4. What was the cause of worry for others?
5. When did Radha take her first solo flight? How did this make her feel?
