# Adverbs

The words that affect the meaning of a verb, an adjective or another adverb in terms of time, place, measure, quality, question are called the **adverb**.

Where	How much	How	How often	When
Towards	Fully	Secretly	Never	Last year
There	Almost	Fast	Sometimes	Last month
Inside	Rather	Well	Often	Today
Here	Extremely	Quickly	Usually	Tomorrow
Back	Entirely	Easily	Generally	Last week
Far	Too	Slowly	Occasionally	Later
Above	Fairly	Lowly	Seldom	Soon
Abroad	Enormously	Accidentally	Rarely	Now
Behind	Very	Weetly	Normally	Yesterday
Away	Just	Emotely	Frequently	Tonight
Outside	Barely	Badly	Hardly ever	Already
Downstairs	Enough	Carefully	Always	Then
Nearby	Deeply	Closely		
Indoor	Completely	Quietly		
In		Specifically		
Out		Cheerfully		
Elsewhere		Strongly		
Anywhere		Beautifully		
		Worriedly		
		Wishfully		
		Grimly		
		Eagerly		

## Assessment of Adverbs on Friday 25/11/2021

### Maths

#### Task 1

**Classwork:** - Exercise 7A Page 129

**Homework:** - Page 130

Task 2

**Classwork:** - Understand and do Pages 131, 132 & 134

**Homework:-** Page 135

### Hindi

- पृष्ठ 75 पढ़ें। किसी 2 पशु या पक्षी की खोज करें। कार्य शीट में करें।
- दोहरान कार्य विलोम शब्द 23/11/2021

दीहरान कार्य पर्यायवाची शब्द 26/11/2021

### UOI

**Task: 1- Read the given resource material and reflect on a Mind-map or Tablemat.**

### Reading Material

#### **Wildlife Conservation: Reasons Why We Need to Save Wildlife**

The term 'wildlife' not only caters to wild animals but also takes into account all undomesticated life forms including birds, insects, plants, fungi and even microscopic organisms. For maintaining a healthy ecological balance on this earth, animals, plants and marine species are as important as humans. Each organism on this earth has a unique place in food chain that helps contribute to the ecosystem in its own special way. So, for us as humans, it becomes a great responsibility to save the wildlife, our planet and most importantly, our own selves.

### **1. For a Healthy Eco-System**

The eco-system is all about relationships between different organisms connected through food webs and food chains. Even if a single wildlife species gets extinct from the eco-system, it may disturb the whole food chain ultimately leading to disastrous results.

### **2. For Their Medicinal Values**

A huge number of plants and animal species are used to make medicines. Many animals are also being studied and researched upon to find cures to deadly diseases.

### **3. For Agriculture and Farming**

Human population largely depends on agricultural crops and plants for its food needs.

Wildlife plays a significant role in growth of these crops as they are responsible for transferring of pollens and seeds.

### **4. For Healthy Environment**

Decomposers and Scavengers play a significant role in keeping the environment clean and healthy.

### **5. For Recreation**

Wildlife helps us to rejuvenate ourselves as where will we go for wildlife safaris, nature photography and bird watching if there are no forests?

### **6. For Livelihood of Individual**

For many, wildlife is the source of income and provides them with their daily bread and butter.

### **7. For saving endangered species from being extinct.**

**Homework: Research about anyone endangered animal and share your findings through PPT/drawing and writing.**

**Task 2:**

**Read the given resource material and get sparked.**

## **Conserving wildlife**

Saving animals is a global concern and a shared responsibility. Wildlife conservation is happening at three different levels.

Wildlife conservation agents

- A). Government
- B). NGO
- C). Individuals

## **Wildlife conservation by government**

Steps taken by govt to conserve wildlife

- 1. Enacting Wildlife (Protection) Act, 1972.** The Act provides for the creation of Protected Areas for the protection of wildlife and also provides for punishment for hunting
- 2. Wildlife Crime Control Bureau** has been established for control of illegal trade in wildlife, including endangered species.
- 3. Protected Areas, viz, National Parks, Sanctuaries, Conservation Reserves and Community Reserves** all over the country covering the important habitats have been created.
- 4. Imposing restrictions on export and import of wildlife products and severe punishment to be given to those who indulge in this activity.**
- 5. Developing game sanctuaries for specific wild animals or for general wildlife.**
- 6. Making special arrangements to protect those species whose number is very limited.**

## **(B) Wildlife conservation by various non-government organisations (NGO)**

An NGO is a voluntary group or institution with a social mission, which operates independently from the government. NGOs or similar organizations exist in all parts of the world. **Major International Wildlife Conservation Organizations active in the World today**

1. World Wildlife Fund
2. Oceana
3. Jane Goodall Institute
4. Nature Conservancy
5. Sierra Club,
6. Royal Society for the Protection of Birds
7. Wildlife Conservation Society.
8. Conservation International

### **(C)Wildlife conservation at individual level**

**We can save wildlife by**

- Going vegan i.e. eating, wearing and consuming only plant product.
- Protecting Wildlife Habitat
- Put out bird bath and grains for birds
- Not littering, its deadly for animals
- Not attending or supporting events where animals are used for entertainment
- Consuming less, Recycling more
- Going cruelty free while shopping.
- Reducing our gadget use
- Expressing our concerns and by becoming actively involved by creating animal clubs.

**Homework: Research about any one national conservation park or NGO associated with safeguarding animals.**

### **G.K**

**Read Page 30 and do Page 34**

### **Music**

Fill the correct lyrics

आई आई \_\_\_\_\_ रात हैं आई  
\_\_\_\_\_ से सजी टिमटिमाती \_\_\_\_\_ हैं आई

हर तरफ हैं \_\_\_\_\_ ठिठोले  
\_\_\_\_\_ बिरंगे जग मग \_\_\_\_\_  
\_\_\_\_\_ को बांधे हर \_\_\_\_\_  
\_\_\_\_\_ की छाए \_\_\_\_\_ में बाहार

Record a video of the song given above
