

**SANSKAR SCHOOL**

**GRADE-I**

**Assignment 28**

**Date: Thursday, 27<sup>th</sup> January 2022**

**ENGLISH:**

**Task 1- Creative Writing - Describe your favorite person (Any family member /friend)**

**Task 2- Integration Comprehension Passage**

**Read the passage and answer the questions in notebook.**

## SUN, STARS AND MOON

In the sky, you can see the sun, stars, and the moon.

The sun is up during the day. It is very hot. The sun gives us light and heat. Plants need the sun to grow.

We can see the stars at night. They give off light and heat, like the sun. That is because the sun is a star, too! There are more stars than we can count.

Some people see shapes in the stars. A group of stars that make a shape is called a constellation. Have you ever seen the Big Dipper? That is a constellation!

The moon is out at night. Sometimes we can still see it during the day! It does not give off light and heat.

### Answer each question:

1. What is this passage about?
2. How are the sun and the stars the same?
3. What is a *constellation*? Highlight the words that helped you.
4. How is the moon different than the sun and the stars?
5. Do you know any other facts about the sun, stars, or moon? Write what you know.

### MATHS:

#### Measurement of Capacity

Task 1 - Do page 123 and 124 of resource book

## HINDI:

दिए गए चित्र में कौन क्या कर रहा है ? नीचे लिखें वाक्यों में से छांटकर लिखिए।
