Example

A Visit to a Zoo

A Zoo is a place where many animals and birds live. They live in the closed areas in the zoo and the visitors can see the animals from the outside of the spaces. There are people who take care of the zoo provide the animals and birds with the best care. The authorities of the zoo make sure that the animals or the visitors of the zoo are not harmed in any way.

Last Sunday, I went along with my friends to a zoo. It is located near Purana Quila in Delhi. It is one of the biggest in India. There were many beautiful birds, monkeys, lions, tigers, cheetahs and snakes in the zoo. Apart from big animals, there were different types of colourful birds in the zoo. The wild and dangerous animals like lions, tigers and cheetahs were kept in different cages. We even saw a white tiger and a gorilla in the zoo. Some of the animals were relaxing while some of

them were eating their food. We enjoyed seeing the acrobatics of the monkeys. I gave some peanuts and bananas to them. Then, we went for an elephant ride. We enjoyed the ride a lot. It was fun.

Whenever I visit a zoo, I learn so much about Mother Nature, the animals and birds that live in that habitat. There are always new things to learn about the animal kingdom.
