**COMPREHENSION PASSAGE**

**Read the passage on Scuba diving given below and answer the questions.**

Scuba-diving is a means of underwater diving using special equipment like oxygen cylinder, wet suits, etc. Scuba-diving allows us to explore the fascinating world of the ocean from under the water. You can begin scuba diving at the age of twelve. If you want to go scuba-diving you must take classes to learn how to use scuba gear and how to have underwater adventures safely. These lessons are given by certified scuba instructors. The first lessons are given in safe and calm environment of a swimming pool. After that a beginner scuba takes the very first real dive in a pond, lake or shallow ocean.

Novice divers enjoy diving in shallow water to view the wonderful coral reefs and the colorful fish that inhabit them. People who scuba dive near places with coral reefs often begin ocean scuba diving on their vacation. Some experienced divers enjoy diving in the deep ocean and look for sunken ships; this is called wreck diving.

Professional scuba divers also participate in underwater rescues or perform other underwater work like measuring water quality, filming documentaries or laying underwater cables.

## REVISION

SONG – Light a candle for peace

By Shelley Murley

Light a candle for peace  
Light a candle for love  
Light a candle that shines  
All the way around the world  
Light a candle for me  
Light a candle for you  
That our wish for world peace  
Will one day come true!  
Sing peace around the world  
Sing peace around the world  
Sing peace around the world  
Sing peace around the world
