# Adjectives

Can you identify the adjectives in the paragraph below?

Circle all the adjectives you can find!

**Example:** The big, blue spaceship zoomed into the sky. The flames were hot and bright and everyone was happy.

For dinner my mom is cooking pizza! I am watching her while she makes it: her small hands pick up the big bag of flour and she tips it into the red bowl. She mixes in some warm water, a pinch of white salt and a packet of yeast. I watch as she mixes the sticky dough together and then kneads it on the clean table top. Next, she shapes the dough into a big circle and spreads on the fresh, red tomato sauce. I ask if I can help and she lets me sprinkle on the dried herbs from the tiny jars - this job is fun! Finally we add some gooey mozzarella and my mom slides the pizza into the hot oven. I can't wait to eat it!

### Task 1

Watch the video on classification of animals on the basis of food they eat. Show your understanding on a Y- Chart.

<https://youtu.be/5oNtBhHuNDw>

### Important terms (For reading only)

A **herbivore** is an animal that gets its energy from eating plants, and only plants. Many herbivores have special digestive systems that let them digest all kinds of plants, including grasses.

A **carnivore** is an animal that gets food from killing and eating other animals. Carnivores generally eat herbivores, but can eat omnivores, and occasionally other carnivores.

An **omnivore** is a kind of animal that eats either other animals or plants. Some omnivores hunt and eat their food, like carnivores, eating herbivores and other omnivores. Many eat eggs from other animals. Omnivores eat plants, but not all kinds of plants.

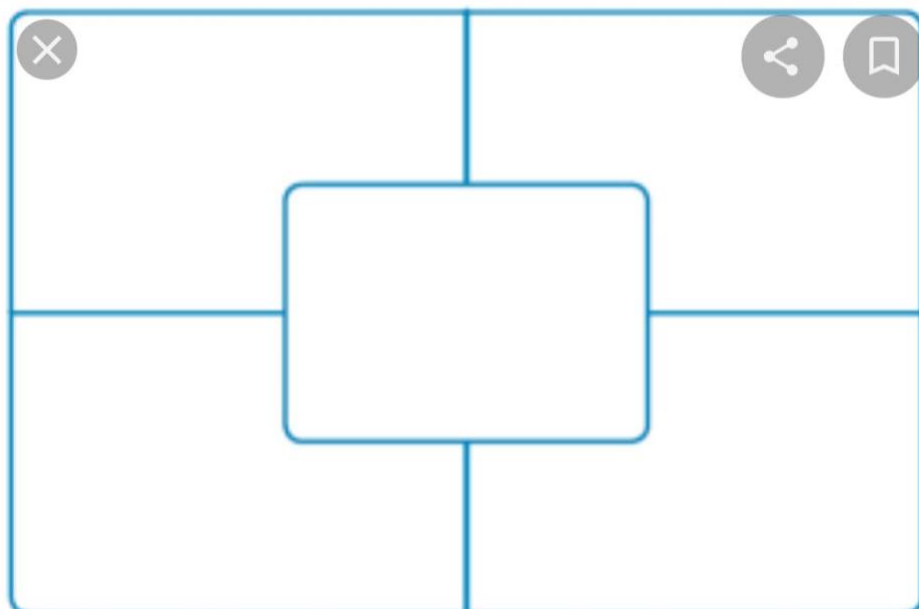

**Scavengers** are animals that consume dead organisms that have died from causes other than predation. While scavenging generally refers to carnivores feeding on carrion, it is also a herbivorous feeding behavior. Scavengers play an important role in the ecosystem by consuming dead animal and plant material.

### Task 2

Explore about different eating styles of different animals through the video.
