In this video we will explore how to keep School clean.

<https://www.youtube.com/watch?v=8LoZ3H0X8EQ>

See the video and reflect.

A Clean and Safe Environment

Children it is our right to have a clean and safe environment. But it is also our responsibility to keep it safe and clean for others!

Fill in the Bubble-Map with ideas about how to keep your environment safe and clean.

The diagram is a bubble map with a central oval containing the text "Ways To Keep Our Surroundings Safe And Clean". This central oval is connected to four empty ovals, one in each direction (top, bottom, left, right). Surrounding the diagram are four illustrations: a boy in a green shirt recycling into a red bin, a messy room with a desk, bed, and bicycle, a person in a blue uniform cleaning with a vacuum, and a girl in a red dress washing her hands at a sink with a soap bar labeled "SOAP".

Keep Your School Clean

10

Our Environment

We should keep our school clean. Every effort we put in cleaning it will help us become a better and responsible human being.
